

SAME19

19TH SYMPOSIUM ON AQUATIC MICROBIAL ECOLOGY

ČESKÉ BUDĚJOVICE, CZECH REPUBLIC

———— 29.08 - 03.09 - 2027 ————

TOPICS

Microbial time series
and temporal dynamics

Spatial distribution from μm
scale to global biogeography

Microbes as sentinels of
environmental change

Microbial functions and
biogeochemical cycles

Microbial interactions

Microbial lifestyles
and ecological strategies

New technologies and big
data in microbial ecology

Microbial diversity from an
evolutionary perspective

Microbial eukaryotes
in aquatic systems

Aquatic viruses

follow us for updates
